

ANTIOCH COLLEGE

June 27, 2022

Dear future Antiochian,

It's a beautiful summer day here in Yellow Springs! As many of our students return home for the summer, the robust nature of the end of spring term transitions into a calm heat as we begin our JA (June/August) optional course block on campus. This summer, many current students will remain on campus, either taking one of our [summer course offerings](#) or working in one of our on-campus, summer jobs.

This week, there are two potential Antioch happenings and a reminder:

1. [We are hosting an open house with our IT department this Wednesday, June 29th from 4:00-6:00 pm.](#) This is a time for you to virtually stop by to ask questions about setting up your Antioch email, google calendar, changing your name on an email address, and any other tech-specific questions. Kevin and David are looking forward to helping you!
2. One-on-one meetings with the Student Success Coordinators, [Beth Barnes](#), and [Jamin Kollasch](#), will continue throughout this week. They will be reaching out via text/phone for folks who haven't connected yet via email.
3. **Reminder:** [Placement testing registration](#) for math and writing continues. All incoming students have the option to choose online or on-campus testing for each test and there are four weeks worth of dates to choose from. The sooner you register and complete your assessments, the sooner we can help you determine what classes you will be able to start with this fall!

We encourage you to visit our [New Student Orientation](#) page to stay up to date on events and resources related to your onboarding at Antioch College. Thank you again for keeping an eye on your inbox, and we're looking forward to meeting you when you arrive in Yellow Springs in August!

Best,

[Asher Ruck](#)
